

**List of Approved Providers for  
Personal Budget Support Services  
With effect from 1<sup>st</sup> July 2017**

People who are using a Direct Payment or Personal Health Budget to arrange their own care and support may need advice and support to do this. While much of this support can be provided by staff from the Council and Hillingdon CCG, some may benefit from additional help.

To help customers and patients find the advice and support they need, Hillingdon Council have set up a list of approved providers. We recommend you choose a provider from this list although you may choose to use someone else or not have support at all. The providers on the list have been approved for one or more of the following services:

**1. Employ a named personal assistant**

A service to assist in the necessary arrangements to formally set up a PA up to and including the completion of a probationary period. Normally for situations where the individual has found their own PA.

**2. Advertise and recruit a personal assistant**

A service to assist in finding/matching PA and individual this would include DBS checks etc and setting up all employment requirements.

**3. Ongoing support to employ a personal assistant - eg information and advice on employment matters**

To assist with the day to day circumstances of employment from appraisal to performance concerns, annual leave, terms and conditions queries.

**4. Payroll Service**

Provision of a full payroll service for an individual directly employing a PA to include all PAYE, P60, IR submissions etc.

**5. Managed Account (using LBH pre paid card)**

Where an individual wants the flexibility of a Direct Payment and does not wish to use council or CCG commissioned services but does not wish to manage the account and liaise with providers themselves, under the direction of the individual this service will organise and arrange all of their care and ensure the record keeping meeting the local authorities requirements.

The Approved Providers on this List have demonstrated to the Council and Hillingdon CCG that they have the capability to meet minimum standards for Direct Payments advice and support services. The Council and NHS will investigate complaints where a Provider does not appear to meet these minimum standards and may remove the Provider from the Approved List where these complaints are upheld.

On the following pages you will find details of the approved providers. For each provider you will find contact details, a brief description and details of the services they are accredited for including their charges. With the agreement of the Council or Hillingdon CCG, any charges can be paid using your Direct Payment or Personal Health Budget.
